which alleged The County of Suffolk used
a policy or custom which allowed corrections
officers to place me on suicide watch
as a punishment (cuffs and shackles)

I was awarded \$30,000 - it is still pending.

Defendant (2)

Plaintiff alleges the following facts are true: On June 12 2015 I went to Kingsbrook Jewish Medical Center due to severe headache (then) 3 years in duration. I seen a physician by the name of Bruce Campbell (Defendant) who as original interpreting Physician gave me an M.R.I. of my brain on June 12, 2015 at aprox 10:46 am. At the conclusion of this M.R.I. I was sent back to Jail (M.D.C.) Brooklyn, N.Y. The impression given - which the Radiology Report reflects - "Small bilateral middle cranial fossa arachnoid cysts. No other abnormality." There was no treatment plan to correct this problem afforded. Now more than a year later I am still in pain. I now hold Bruce Campbell (defendant) liable for negligence and malpractice which has added to my severe head pain now over 4 years in duration and still. I also hold Kingsbrook Jewish Medical Center liable as an entity under monell for failure to train there employees to provide a treatment plan to patients in there care. Because Bruce Campbell or who ever wrote the Radiology Report didn't even know my date of Birth. I am still in severe pain. My central nervous system has gotten effected I think. I'm not a doctor - I only know I am still suffering

And frankly, I'm scared to ever go back to
Kingsbrook Jewish Medical Center again.

Relief Sought:

Plaintiff seeks injunctive relief, mental anguish, pain and suffering in the form of \$60 million dollars and for what such further relief pursuant to the 5th amendment's just compensation clause this Honorable Court will deem just and proper

I swear under penalty of perjury the above is true
